Single Premium Deferred Annuity with Long-Term Care Accumulated Value, SA35 (CA)

Description of Contract: Annuity Care II is a single premium deferred fixed interest annuity that combines long-term asset growth and long-term care (LTC) benefits. This LTC benefit is built-in to the annuity, providing you with a combination of annuity value and additional long-term care benefits should you need them. Also included is a Continuation of Benefits (COB) for LTC provision. This provision allows for continued benefit payment of covered expenses for qualified LTC services.

Other Things You Should Know About This Contract:

Contract Premium: The single amount you pay for this contract.

Guaranteed Interest Rate: Accumulated Value (AV): For the first contract year, the guaranteed and projected (non-guaranteed) interest rates are both 3.75%. After the first contract year, the guaranteed interest rate on the AV is 2.30%. LTC Accumulated Value (LTC AV): For the first five contract years, the guaranteed interest rate and the projected (non-guaranteed) interest rate are both 3.80%. After the fifth contract year, the guaranteed interest rate on the LTC AV is 2.30%. The rates in your contract may differ from this illustration.

Projected (Non-Guaranteed) Interest Rate: Accumulated Value (AV): The projected (non-guaranteed) interest rate in all years is 3.75%. The projected (non-guaranteed) interest rate on the LTC Accumulated Value (LTC AV) is 3.80%.

Tax Information: The values illustrated do not reflect benefit payments. All AV benefit payments are subject to federal income tax, to the extent of the gain in the contract. Benefit payments prior to the owner reaching age 59 1/2 will generally be subject to an additional 10 percent federal income tax penalty. LTC AV benefit payments are considered federally tax-qualified and income tax-free as a reduction in basis. This illustration should not be relied on for tax advice. Any tax issues regarding this illustration or the contract should be reviewed with the owner's tax advisors.

Cash Surrender Value: Surrender charges are applicable only for withdrawals from the AV, and then only for the first nine policy years. Surrender charges are waived on partial surrenders equal to 10% or less of the AV (as of the beginning of the policy year) after the first policy year. Any partial surrender from the AV proportionally reduces the LTC AV. Surrender values reflect the partial surrender percentage on which surrender charges are waived. Surrender charges will be waived on qualifying LTC benefit payments from the LTC AV. Upon full surrender, these charges will be deducted in the first nine years as follows:

Contract Year	1	2	3	4	5	6	7	8	9	10+
Surrender Charge	9%	8%	7%	6%	5%	4%	3%	2%	1%	0%

Continuation of Benefits Provision: The COB provision will continue coverage of qualifying long-term care expenses under the contract. There is a monthly charge deducted from the AV to pay for the Continuation of Benefits (COB) provision. The LTCAV is reduced on a proportional basis for the monthly charges to the AV. Based on the issue age(s) and COB option selected for this illustration, the monthly cost as a percentage of the LTCAV is 0.282%. The percentage is guaranteed to never change. At issue, the COB monthly benefit limit will equal the LTCAV divided by 24 months.

LTC Accumulated Value: The amount available for payment of covered expenses for qualifying long-term care services incurred under the contract.

COB Balance: The amount available under the Continuation of Benefits provision, which is available only when long-term care payments have reduced the LTCAV to zero (0).

Total LTC Balance: The sum of the LTCAV and COB Balance.

LTC Monthly Benefit: The amount payment will be based upon is the amount of actual expenses incurred for qualifying long-term care covered expenses up to the LTC Monthly Benefit.

LTC Benefit Payments: The LTCAV can be used by the owner to pay qualified LTC expenses incurred by a covered person after a 90-day elimination period is met. An outline of coverage will be provided to you with the eligibility requirements, exclusions and limitations. The LTCAV is no longer available if you elect either a full surrender or annuitization of the contract. The benefit period for the LTCAV is 24 months. When LTC benefit payments are paid from the LTCAV, the AV is reduced on a proportional basis.

Annuity Payment Options:

This single premium annuity contract is a deferred annuity contract. This annuity contract guarantees an annuity income stream of payments upon the Maturity Date. Since the payout options begin at a future date, you don't pay taxes on the interest the annuity earns until the contract value is paid to you. The contract provides a choice of settlement options, shown below, so you can choose an income stream that is appropriate for your needs. The automatic annuity option is Life Annuity with Guaranteed Period of 10 years.

The annuity payment options available are:

Income for a Fixed Period

Life Annuity

Life Annuity with a Guaranteed Period

Joint and Survivor Life Annuity

Joint and Survivor Life Annuity with a Guaranteed Period

This annuity payment estimation is based on annuitization occurring in contract year 10:

	Guaranteed Monthly Payment	Non-Guaranteed Monthly Payment
Annuitized Value	\$178,868	\$205,765
Income Rate per \$1,000	\$5.29	\$5.29
Life Annuity with 120 Guaranteed Payments	\$946.21	\$1,088.50

The amount of the monthly payment will be based on the cash surrender value. The LTCAV is no longer available if either a full contract surrender or annuitization is elected.

California may impose a tax at the time of annuitization. The income payments illustrated above do not reflect the deduction of this tax.
