# Tax status

**Valued Client, 50 year-old Female in Florida with a "Couples Discount" underwriting class and 6-year minimum LTC duration**

The *MoneyGuard Fixed Advantage*® (2025) Death Benefit is generally received by the beneficiary income tax-free under Section 101(a) (1) of the Internal Revenue Code (IRC) and the Long-Term Care (LTC) benefits paid are not includable in the policy owner's gross income under IRC Section 104(a) (3). While the policy is in-force, the interest earnings credited to the policy's Gross Cash Value are not includable in the owner's gross income.

Based on our understanding of applicable law, the projected policy is a Modified Endowment Contract (MEC) as defined in IRC Section 7702A. Distributions from a MEC may be subject to income tax, and an additional 10% federal income tax penalty applies to taxable distributions received before the policy owner reaches age 59 1/2.

The Pension Protection Act of 2006 (PPA) changed the tax treatment of your MoneyGuard policy effective January 1, 2010. Based on our understanding and analysis of the PPA:

- Qualified Long-Term Care Rider charges will continue to be treated as distributions from your policy, but Lincoln will not report the distributions as taxable (even if your policy is a MEC).
- Qualified Long-Term Care Rider charges will reduce the investment in the contract (cost basis), but not below zero, as the charges are taken from your policy.
- Once the investment in the contract has been reduced to zero, distributions for Qualified Long-Term Care Rider charges will come from any gain in the contract (but will still not be reported as taxable distributions). You will receive a 1099R form for the charges, but the charges are not reported as taxable.

Please note that the state income tax laws in certain states may not conform to the federal income tax treatment of the Qualified Long-Term Care Rider charges described above. In such states, the charges may be treated as taxable distributions from the policy for state income tax purposes. However, the federal income tax treatment described above will continue to apply to such charges.

It is important to remember that these rider charges now and in the future impact the policy's investment in the contract. In the event any other financial transaction is requested, the investment in the contract is used in determining if that transaction creates a taxable event. As previously noted, the investment in the contract is reduced as a result of these rider charges. The full surrender of the policy may result in a taxable event and the owner should consult his/her personal tax advisor regarding this and other applicable tax matters.

Regarding the premiums paid into this policy, the Total Premiums include all payments paid into this policy, not specified as loan repayments. Total Premiums are divided into Life Premiums, which are applied to the Life contract, and LTC Premiums, which are applied directly to the LTC Rider and are never deposited into the Life contract. Life Premiums, and the benefits they provide, are intended to qualify as premiums paid for Life Insurance under Code sections 7702 and 7702A of the Internal Revenue Code (IRC). LTC Premiums are intended to qualify as premiums paid for Long-Term Care insurance under IRC Code 7702B.

The LTC Premiums paid into the policy may be tax deductible. You should consult your tax advisor about the potential tax deductibility of LTC premiums.

Lincoln Financial affiliates, their distributors, and their respective employees, representatives and/or insurance agents do not provide tax, accounting or legal advice. Clients should consult their own independent professional as to any tax, accounting or legal statements made herein.

# Policy features, benefits and definitions

**Valued Client**, 50 year-old Female in Florida with a "Couples Discount" underwriting class and 6-year minimum LTC duration

## **Year**

The policy year beginning with the effective date of the policy.

## **Age**

The insured's age at the beginning of the policy year shown.

## **Benefit Transfer Rider**

Provides for the potential to add benefits for this policy using Death Claim dollars from a different policy. Also allows for the Death Claim dollars from this policy to add additional benefits on a different policy. In order to utilize this feature, both policies must include the Benefit Transfer Rider, in addition to insured and beneficiary designations aligning between the two policies.

## **No-Lapse Guarantee**

This feature guarantees that your policy will not lapse if the no-lapse premium test is satisfied. The no-lapse guarantee is provided through the Value Protection Endorsement (VPE).

## **Specified Amount of Death Benefit**

The minimum amount of death benefit and the basis of the LTCBR and Endorsement benefits. Long-term care reimbursements reduce the Specified Amount of death benefit on a dollar-for-dollar basis.

## **Residual Death Benefit**

Death Benefit paid after benefits have been exhausted as defined in your policy.

## **Internal Rate of Return**

The Internal Rate of Return is the rate at which outlays (premiums) up to that year must be compounded each year to generate the death benefit or LTC benefits shown. For this calculation, all outlays are assumed to occur at the beginning of the year with the death benefit or LTC benefits occurring at the end of the year.

## **Monthly Maximum Benefit Amount**

The maximum amount that is available to be paid each month to reimburse the costs incurred by the insured for Covered Services under the rider. If electing to receive benefits via indemnity, 80% of the Monthly Maximum Benefit Amount will be available. The irrevocable choice of reimbursement or indemnity benefits will need to be made at time of first claim.

# What care costs

Valued Client, 50 year-old Female in Florida with a "Couples Discount" underwriting class and 6-year minimum LTC duration

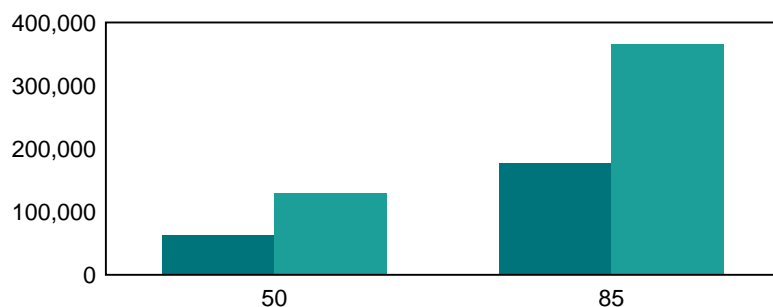

## A look at the cost of long-term care services in Florida

The cost of long-term care services is an important variable in determining your planning needs.

Below we show the current average costs for care in your state for

- 1) 40 hours per week of home health care by a Home Health Aide, and
- 2) a private room in a nursing home.

It is vital to note that long-term care costs are highly variable within a region, state, or even a city. We also show an estimate of the projected costs in 35 years, based on an assumed inflation rate of 3.00%.<sup>1</sup>

		Annual	Monthly
Home Health Care <sup>2</sup>	Age 50	\$63,065	\$5,255
	Age 85	\$177,456	\$14,788
Nursing Home <sup>2</sup>	Age 50	\$129,768	\$10,814
	Age 85	\$365,149	\$30,429

## Your LTC benefit limits

Below are amounts available to reimburse for qualified long-term care expenses when your policy is issued, and at age 85. Amounts are based on your policy assumptions shown above, and assume you pay all premiums of \$110,744 as planned, with no loans or withdrawals. Total LTC Payout is based on the Minimum LTC Duration purchased.

LTC Benefit Limit	Age 50	\$582,157
	Age 85	\$1,638,108
Maximum Monthly LTC Benefit	Age 50	\$7,500
	Age 85	\$21,104

## Planning Ahead

It's important to understand how much your long-term care planning will cover if and when the need arises. Review your information with your financial professional and determine what your income is projected to be at age 85.

Discuss your specific needs, expectations and preferences with your financial professional. Based on your situation, factoring in the information provided above, determine what your estimated long-term care costs might be, and discuss if you have the coverage you need. Amounts shown are estimates based on the assumptions shown, and are not guaranteed. Projected costs and inflation rates vary by state, region, and may be impacted by other factors. Actual costs may be more or less than those shown.

<sup>1</sup> Inflation rate based on information from "What Care Costs" annual survey, including recent claim cost trends; actual inflation rates may vary. 5/2025 updated annually.

The Lincoln National Life Insurance Company cannot change any of the terms of your policy and rider on its own and cannot increase the monthly rider charge.

## Pre-Existing Conditions

We will not deny benefits for pre-existing conditions. This does not preclude us from exercising other remedies available at law, in equity or in contract because of misrepresentations. ## Reductions

Partial surrenders and decreases to the specified amount, will reduce the LTCBR benefit limit. Any reduction in the LTCBR benefit limit will reduce the LTCBR maximum monthly benefit proportionately. ## Tax Qualification

This policy is intended to qualify as life insurance under the Internal Revenue Code. The death benefit provided by this policy is intended to qualify for the Federal Income Tax exclusion. The LTCBR is intended to be a federally tax-qualified long-term care insurance contract under Section 7702B(b) of the Internal Revenue Code of 1986, as amended.
